MAHIRO AND THE GACHA GAME

Q.NIMAI:
I'M NOW YOUR SISTER!

* To "whale" or "whaling" in a gacha game refers to players who spend large amounts of real currency to obtain higher odds on digital items.

Note: In gacha games, the player spends real currency for the chance to receive randomly-selected digital items.

** A banner is a limited-time event in which specific characters or items are available.

* One hundred yen is approximately one USD. ** Each play of a gacha game is called a pull, draw, or roll.

Afterword

Thank you so much for picking up the first volume of Onimai! Because this was originally a self-published work, it veers off into some pretty niche topics, but somehow it became popular enough to be officially published in a collected edition! I'm still planning to continue the story, so with your support there will hopefully be a volume 2 to follow!

Somehow or other, we've even made a drama album based on the comic! It's only be available through online doujin storefronts, but it is available digitally as well as physically. I hope you can enjoy it alongside the comic!

See you next time!
